

Pupil Parliament Tree Planting 27th November 2018

We have been in contact with Dan Massey who is the Head Ranger for the West Lancashire Borough Council and have organised for Pupil Parliament to be involved with the development of the Tawd Valley Park Development.

The next phase of the development is the New Orchard which involves planting a hedge and fruit trees. This meeting will involve the children planting new fruit trees and this date links in with National Tree Week. We feel this is a great opportunity for the children to be involved in this phase of the development.

The plan is to meet at the bottom of Manfield and cars are able to park on the grass area in front of the allotments. Dan will meet us here and walk over to the area for the planting of the trees. This will be great for the children to see the development of the allotments and to ask Dan any questions in regard to the next stages of the Tawd Valley Park Development.

Just wanted to send an email to say thank you to all the schools that braved the weather and attended the tree planting this afternoon. All the children were great and got involved planting trees & bulbs as part of the Tawd Valley Development. The rangers and council members who attended were very complimentary of all the children and how they all got stuck in.
